

THE BOX Frontal

Our THE BOX is an environmentally friendly Fuel Station, which offers the superior versatility and security for your fuelling solutions.

Especially useful for fleets, construction, mining, marina, retail, remote locations, and a wide range of applications.

THE BOX is Turnkey & Heavy-Duty concept, ready to work and built to last on the hardest conditions.

ISO CONTAINER

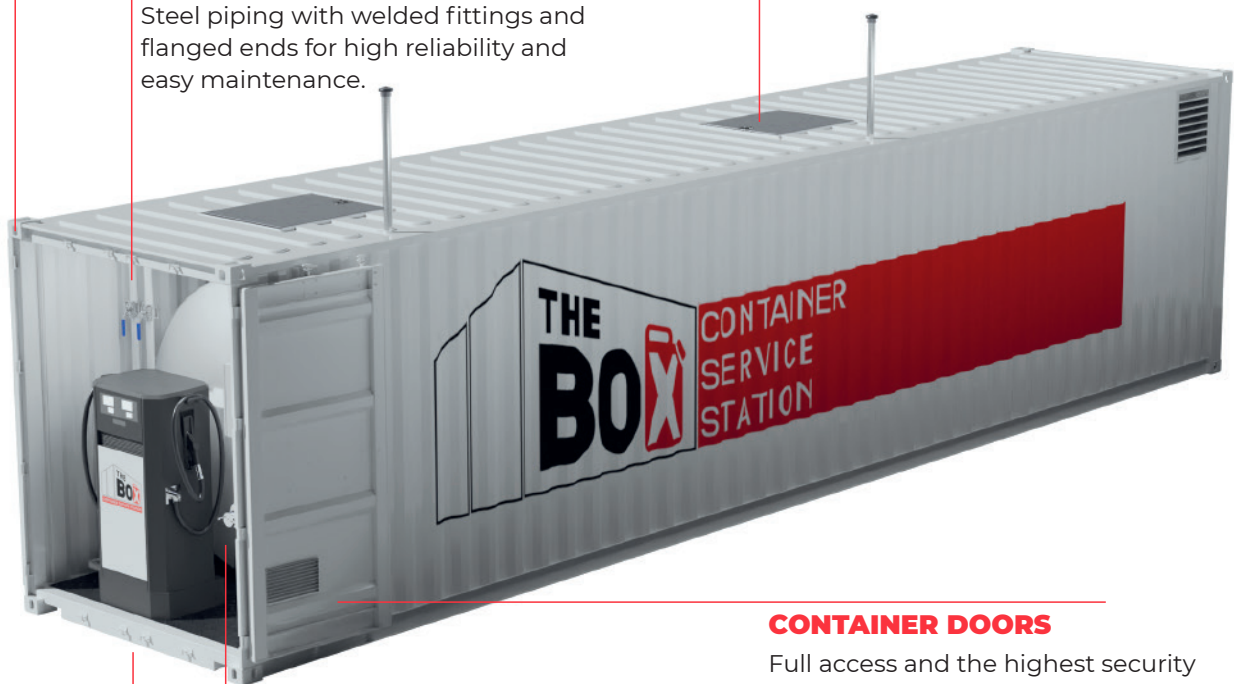

CSC certified for multimodal transport and easy handling. Provide a solid protection to all the equipment.

ACCESS HATCH

Easy access to tank's manhole for maintenance operations.

STEEL PIPING

Steel piping with welded fittings and flanged ends for high reliability and easy maintenance.

CONTAINER DOORS

Full access and the highest security locking system.

DOUBLE WALL

Double wall fuel storage tank with leak detection.

EQUIPMENT CABINET

Lockable and full and with enough space for the fuelling equipment.

CERTIFIED
ISO 9001

Caldereria Terns, SL | C. Ramon Llull, 52 | 08554 Seva (Barcelona)

MULTIPLE OPTIONS

MULTIPRODUCT

The tank can be divided up to 3 compartments, to store & supply different products like: Diesel, Biodiesel, Petrol, Kerosene, DEF...

ADBLUE

Integrated insulated cabinet with full installation to store & supply AdBlue.

EQUIPMENT

Installation of different equipment like; Fuel Dispensers, Fuel Management, Transfer Pumps, Submersible Pumps, ATGs, Filter, Meters, Spotlights...

NO LIMITS

THE BOX can be adapted to your needs.

EXPLOSION PROOF

THE BOX can be adapted to store & supply Petrol, Bioethanol or other highly flammable products, according to the regulations.

SELF-POWER

Integrated electric generator or a solar energy system in a separated cabinet.

MODULAR

THE BOX can be linked with others to increase capacity or different purposes.
