

Above-ground double skin tanks EN 12285-2

Horizontal cylindrical steel tanks for the aboveground storage of flammable and non-flammable water-polluting liquids.

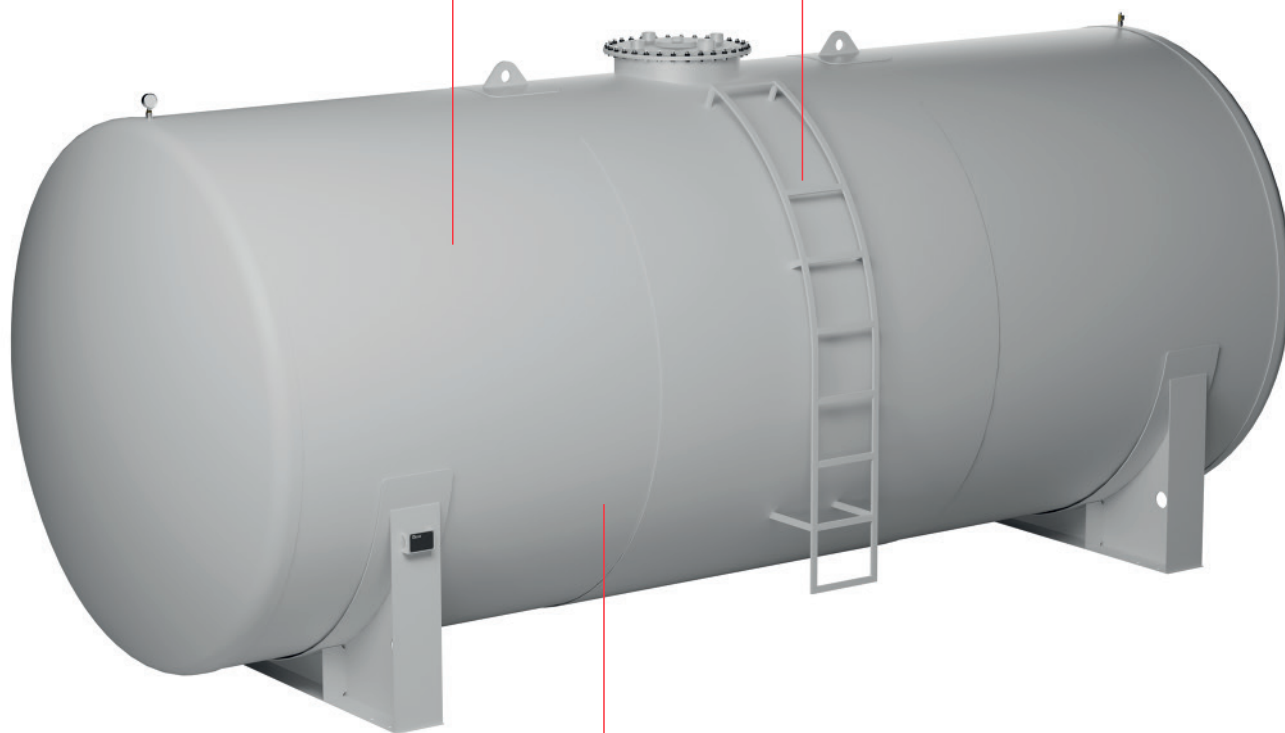

Manufactured in accordance with European standard EN 12285-2 Class A.

CUSTOM MANUFACTURING

From 1,000 to 120,000L,
with multiple options
and accessories.

FUNCTIONAL DESIGN

Welded supports
and integrated ladder
for quick and safe installation.

TOTAL PROTECTION

Double-walled design
with leak detection.

CERTIFIED
ISO 9001
